

Louisville Metro Council  
Capital Infrastructure Fund  
Department/Agency Request

Date 3-1-06

Council Member Rick Blackwell

Amount \$6,000.00

For ( include public purpose)

To place Street signs on Dixie Highway at all  
Stoplights in District 12 (9 total). Center hanging  
Street signs, similar to those on 2<sup>nd</sup> Street, will allow  
for easier maneuvering for those who are not familiar  
with Dixie Highway.

Location: 9 lights at the intersections of Dixie Highway and  
Glendale, Rockford Ln, Upper Hunters Meyers Ln, Trent, Blanton Ln, Lower Hunters Trace,  
St. Paul's Church Rd, Greenwood Rd.  
Metro Government Department/Agency Public Works

or

Other Metro Government or Special Purpose District \_\_\_\_\_

Contact Person: Dan Curtis

Agency Phone: 601 N. Jefferson St., Room 10

Agency Address: 574-3879

I have reviewed this request for an expenditure of Metro Government tax dollars,  
and have determined that the funds will be used for a public purpose.

## Henderson, Bob

---

**From:** Curtis, Dan  
**Sent:** Friday, February 24, 2006 6:01 AM  
**To:** Parris, Jenny; Henderson, Bob  
**Cc:** Adams, Mark; Adkins, Jim  
**Subject:** RE: SNS on Dixie Highway

**Importance:** High

Thanks Jenny.

As soon as everything is in place and the account set up, we will start ordering material to fabricate the signs.

Dan

Dan,

Councilman Blackwell and Councilman Henderson have decided to proceed with this project. We are in the process of completing the paperwork now. We will let you know when we have it filed for approval by the Council.

Thanks,  
Jenny Parris

Hi Jenny,

As you requested, we have put together an estimate to install overhead SNS at the signalized intersections between Gagel and the County line. I have talked with Brian Meade, KTC District 5, and he is willing to issue a permit. He is also OK with the signs attaching to the signal's messenger cable. He has indicated that we must put the signs back-to-back, one for each direction, as close to the center as possible. We will need to contact Brian if we run into any problems. I am assuming that you will take care of getting the state permit.

As I have explained, the street names need various size of backing and the cost is much higher than purchasing 25 of one size. Also, the only crew that may hang the signs is our Electrical Maintenance crews. Also, because of the traffic on Dixie Highway, the work can only be done on weekends and generally Sunday mornings.

So this estimate includes OT work for our Sign crew to fabricate the signs and the Electrical Maintenance crew to install them. As we discussed, you only want Metro Style SNS to identify the side streets, nothing for Dixie Highway.

Based on the conditions I described above, we could agree to a, not to exceed, cost of \$12,000. Also, please understand that if Traffic Operations does this project, all Metro work takes priority. However, assuming no interruptions, we should be able to complete the fabrication within a couple of weeks and the installation within 4 weekends. Again assuming there are no problems with material, etc.

Should you have any questions, please let me know.

Dan
